Family Visitation Financial Support Program

Family involvement is very important to us and we would like to do what we can to help you in visiting your child.

Family Visitation Financial Support Program

Given that there are only two youth custody centres remaining in the province of British Columbia, we have understood the need to provide additional supports to families wishing to visit their child serving a custody sentence at one of our facilities.

This program is available to families who have a youth serving 30 or more days of custody at either Burnaby or Prince George locations.

The Case Management team at either centre can assist families with an application for funding support. This may include financial assistance with:

- Hotel accommodations
- Transportation
- Meals
- Miscellaneous travel costs

In addition to the Family Visitation Financial Support Program, Burnaby and Prince George can also offer video visitations. This would require you to attend your local community youth probation office, who would coordinate with the Case Management team at either the Burnaby or Prince George Youth Custody Centre to facilitate a computer video conference.

Our Mission

Youth Custody Services contributes to public safety by providing healthy and supportive environments that:

- Empower youth to build on their strengths
- Facilitate engagement with families and community, and
- Support excellence in service delivery

***FAMILY ~ Where life begins
and love never ends.***
