*Abbotsford Police Department (AB), Central Saanich Police Service (CS), Delta Police Department (DE), Nelson Police Department (NE), New Westminster Police Department (NW), Oak Bay Police Department (OB), Port Moody Police Department (PM), Saanich Police Department (SA), Stl'at'imx Tribal Police Service (STP), Metro Vancouver Transit Police (TP), Vancouver Police Department (VA), Victoria Police Department (VI), and the West Vancouver Police Department (WV).

**"Proximal to" does not mean "caused by." The 2014 proximal-death incident listed in the table above occurred in Burnaby, was investigated by the IIO, and the Coroner determined that the death was due to excited delirium from cocaine toxicity.

Conducted Energy Weapons, 2014

DEFINITIONS

Conducted Energy Weapon (CEW): a weapon designed to use a conducted electrical current in order to incapacitate a person (probe mode) or to generate compliance through pain (contact stun mode).

CEW Display: the act of pointing, aiming or showing the CEW at or to a person without discharge.

CEW Discharge: the act of firing a CEW in any mode against a person.

CEW Contact Stun (CS) Mode: the act of firing a CEW by directly applying the muzzle to a person.

CEW Probe Mode: the act of firing a CEW (fitted with a cartridge) at a person from a distance. The CEW transmits electrical pulses through the wires and into a person's body.

Non-Trivial Injury: an injury which necessitates medical attention for a condition likely to interfere with the health or comfort of the person and is more than merely transient or trifling in nature. Examples of non-trivial injuries include: lacerations, broken bones/fractures, concussions etc.
