WEEKLY INCIDENT REPORT 11-17 APR 2016

DANGEROUS GOODS (CODE 2)

On 13 Apr 16, Teck Metals in Trail reported a break in a liquid collection system at from an old landfill and a permitted storage facility that resulted in material being released into Stony Creek and the Columbia River. There was a potential for the material to contain Zinc, Cadmium and Arsenic. The Ministry of Environment Response Officer (MOE RO) raised the incident to Code 2 (urgent status) as the Columbia River crosses the BC border into the U.S.

On 13 Apr 16, a CN Rail train derailed in Chetwynd. Two cars loaded with pallets went off the tracks. No spills or injuries were reported. The MOE RO raised the incident to Code 2 (urgent status) with an immediate downgrade to Code 1, once the enhanced notifications were completed.

On 15 Apr 16, a significant diesel slick was reported in False Creek in Vancouver. The incident was raised to Code 2 (urgent status) by the MOE RO due to heightened media attention. The Canadian Coast Guard responded and was unable to locate the source of slick and the material was determined to be unrecoverable.

On 15 Apr 16, a report was received of a white material covering a large area in the Gorge Waterway in Victoria. The incident was raised to Code 2 (urgent status) by the MOE RO due to potential heightened media attention. The City of Victoria confirmed the source of the spill and determined that the material was non-recoverable.
