DANGEROUS GOODS

No pollutants were released and the vessel was not in immediate risk of drifting ashore. The incident was raised to Code 2 (urgent status) by the Ministry of Environment Response Officer (MOE RO) to ensure broader awareness through enhanced notification protocols.

LANDSLIDE

On 29 Jan 2018, the Nanaimo Regional District was issued a task number for a washout on Rumming Road near Lantzville, as a result of heavy rains, which also affected stability of a nearby 60 foot embankment. A Geo-Tech assessment was conducted by MOTI and one home was deemed unsafe for occupancy.

FLOODING

On 29 Jan 2018, the Cowichan Valley Regional District activated their EOC at a Level 1 due to heavy rains resulting in flooding on the Koksilah, Cowichan and Chemainus Rivers.

On 29 Jan 2018, the Fraser Valley Regional District's EPC responded to a flooding incident in the Ridgeview Road area of Dewdney. A creek was compromised and breached due to heavy rains and 3 properties were impacted.

On 01 Feb 2018, the East Kootenay Regional District requested a task number to conduct a fly over to determine if a creek leading into a reservoir was obstructed, which would pose a potential risk of flooding and landslide.
