

AUTOMATIC FIRE ALARM SYSTEM - AD

Alarm systems intended for the detection of a fire condition and the sounding of an alarm or the transmission of an alarm. Detection devices are coded under Initial Detection.

Automatic Fire Alarm System is only coded in the case of buildings.

***Note:** Installation of smoke alarms in dwellings is not a fire alarm system. (See Smoke Alarm Operation - SD)*

- 1000 No fire alarm system
- 2000 Fire alarm system - local (building only)
- 3000 Fire alarm system - off-site monitoring agency

- 0008 Not applicable (e.g. vehicle, outdoor, person)
