

Master of Disaster – Learning Resources Pilot Project

Thank you for your interest in piloting PreparedBC's Master of Disaster learning resources for grade 6. Follow the instructions on the Master of Disaster home page for suggestions on how to use the resources provided. The intent is that teachers are able to use the lessons and supporting materials "as is" or modify to what suits the classroom's needs.

Master of Disaster is taught in three modules, each building upon the one previous. Each module provides suggestions of how to achieve the outlined learning outcomes and suggested activities to help students grasp the concepts. Feel free to use all or some of the materials, and note that the "hazard worksheets" can be customized to meet the needs of the classroom.

Once all three modules are completed, you will officially be a "Master of Disaster" and can print off your very own certificate of achievement!

Feedback

In order to improve and expand the resources, we'd appreciate feedback on all aspects of how these learning resources worked for you. We are especially interested in knowing the following:

- Did the resources and modules get your students excited about learning about hazards and preparedness?
- Do you think that they talked to their families about the importance of getting prepared?
- What type of time frame did you spend on both teaching and letting students work on the activities in each module?
- Would you use these learning resources to teach about hazards and preparedness again?
- What is one thing (or more) that worked really well, and one thing (or more) that did not work at all?
- Do you have any suggestions for improvement?

Please send feedback to PreparedBC@gov.bc.ca or by mail to PreparedBC at Block A - Suite 200, 2261 Keating Cross Road, Saanichton B.C. V8M 2A5.

With permission from yourself, parent/guardian and the school principal, please allow students to fill out the Master of Disaster student questionnaire and return with your feedback. It's extremely helpful to have the students' perspective captured in their own words.

Teacher Feedback Form

Please fill out the form below and return to PreparedBC@gov.bc.ca. Please elaborate on questions as best you can. We appreciate any and all feedback to ensure the success of this program.

1. Did the resources and modules get your students excited about learning about hazards and preparedness?

2. Do you think that your students talked to their families about the importance of getting prepared?

3. What amount of time did you spend on both teaching and letting students work on the activities in each module?

4. Would you use these learning resources to teach about hazards and preparedness again?

5. What is one thing (or more) that worked really well, and one thing (or more) that did not work at all?

6. Do you have any suggestions for improvement?

7. Did you use the multimedia resource library to enhance any of your lessons? Please explain.

8. Which approaches did you use and which activities did you use to support the lessons?

9. Does the look and feel of the resources appeal to your classroom?

Student Feedback Form

Please fill out the form below to tell us what you thought about the **Master of Disaster** learning series. We'd love to hear your thoughts to ensure that future students get the best experience thanks to your expertise!

1. Did you like the Master of Disaster learning series? Yes Somewhat No

Please explain what you liked or disliked:

2. Which lesson did you like the best and why?

3. Which activity did you like the best and why?

4. What did you like the least about Master of Disaster?

5. Did you talk to your family about Master of Disaster? Yes Somewhat No

What did you discuss?

6. Did you like the pictures used in Master of Disaster? Yes Somewhat No

Why or why not?

7. What did you not learn about in Master of Disaster that you wish you did?

8. Do you feel more prepared for an emergency now than you did before? Yes Somewhat No

Explain:

9. Any other comments or ideas you have about Master of Disaster:
