\* Any suppliers providing equipment composed of unlined carbon steel tanks will clearly label the tanks in large format as “Unlined Carbon Steel Tank”. Labelling must be of sufficient size so any pilot under contract with the BCWS is able to read the labeling from the helicopter when landed to receive fuel (Section 3.1 of the RSO.).

**OTHER SERVICES (e.g. second operator, additional pump.)**

Include fees with its unit of measure (e.g., per hour, per day).
