

2026 BCWS EQUIPMENT RATES and MARKET FUEL ADJUSTMENTS

2026 Information

- **All Found Rate** means equipment and operator together with all costs and expenses, including equipment attachments, for the work being undertaken, excluding fuel and lubricants. Fuel and Lubricants are included in the BCWS Market Fuel Adjustment.
- **Market Fuel Adjustment** will only be applied to all found rates. Fuel adjustments are not applicable to standby. It is the contractor's responsibility to add the fuel adjustment amount to their invoice. Monthly Market Fuel Adjustments will be posted within one week of the month's commencement. The monthly Market Fuel Adjustment rates applied to the invoice should reflect the month(s) the work was completed in. If work was completed in more than 1 calendar month, the highest monthly Market Fuel Adjustment rate during the time the work was occurring may be applied to the invoice for all applicable work completed.
- The decrease in year-over-year hourly rates for Section 5.1 - Log Loaders is intentional.

2026 Equipment Rental Agreement Rate Information

- **Operator Transportation** means travel by an equipment operator between staging areas or to and from the Point of Hire or Marshalling Point to a Ministry designated worksite where the equipment is located.
 - **Operator Transport** compensation is per Section 6.8 below.
 - **Point of Hire** is designated in Section 7 of the Equipment Rental Agreement (FS101).
 - **Marshalling Point** means the location where the operator(s) assemble at the start of each shift before commencing work.
- **Limited Indemnity:**
 - Applies per Section 13 of the Equipment Rental Agreement (FS101).
 - Hourly Limited Indemnity rate reduction shall be applied per Section 5 of the Equipment Rental Agreement (FS101).
 - Adjusted Rate is calculated by subtracting the applicable Section 5 Limited Indemnity reduction rate from the All Found Rate.
- **Adjusted Rate** is calculated by subtracting the Limited Indemnity rate from the All Found Rate.
- **Point of Hire Standby** means the equipment is under the supervision or direction of the Province and the equipment and operator are available and ready for deployment within 30 minutes from their designated point of hire.
 - $(\text{All Found Rate} - \text{Operator Rate}) / 2 + (\text{Operator Rate} \times 75\%)$
- **Transport** means rental Equipment being relocated to and from the Point of Hire or between various staging areas at the designated worksite.
 - Transport rate is calculated as $(\text{Adjusted Rate} - \text{Operator Rate}) / 2$
- **On Site Standby (OS Standby)** means the equipment is under the supervision or direction of the Province and the equipment and operator are available within 5 minutes for work at the designated worksite.
 - OS Standby is calculated as $(\text{Adjusted Rate} - \text{Operator Rate}) / 2 + \text{Operator Rate}$
 - OS Standby LO is calculated as $(\text{Adjusted Rate} - \text{Operator Rate}) / 2$
- **Equipment in the Peace/Northern Allowance (NWFC)** – A general northern allowance of 10% will be accepted for Haida Gwaii (Coastal Fire Centre), Highway 97 north of Pink Mountain (Prince George Fire Centre) and Highway 37 north of the Cranberry 2 Bridge (Northwest Fire Centre) to cover added costs in those areas.
