

2022 BCWS EQUIPMENT RATES and MARKET FUEL ADJUSTMENTS

2021 Information

- **All Found Rate** means equipment and operator together with all costs and expenses for the work being undertaken.
- **Market Fuel Adjustment** will only be applied to all found rates. Fuel adjustments are not applicable to standby. It is the contractor's responsibility to add the fuel adjustment amount to their invoice. Monthly Market Fuel Adjustments will be posted within one week of the month's commencement. The monthly Market Fuel Adjustment rates applied to the invoice should reflect the month(s) the work was completed in. If work was completed in more than 1 calendar month, the highest monthly Market Fuel Adjustment rate during the time the work was occurring may be applied to the invoice for all applicable work completed.

2021 Equipment Rental Agreement Rate Information

- **Operator Transportation** means travel by an equipment operator between staging areas or to and from the Point of Hire or Marshalling Point to a Ministry designated worksite where the equipment is located.
 - o Operator Transport compensation is \$0.96/Km (Section 6.8 below).
 - o Point of Hire is designated in Section 7 of the Equipment Rental Agreement (FS101).
 - o Marshalling Point means the location where the operator(s) assemble at the start of each shift before commencing work.
- **Limited Indemnity** – The hourly rate for the limited indemnity will be deducted from all suppliers of heavy equipment unless the owner of that equipment notifies the Province, in writing, that they either have insurance to cover loss or damage to their equipment, or they are accepting the risk of working uninsured. Hourly rate reductions shall be applied to situations where the Equipment is working, being transported or On-Site Standby at the designated worksite. The reduction rates are as follows:
 - o \$0.50 decrease for rental rates up to \$49.99
 - o \$1.00 decrease for rental rates from \$50.00 to \$74.99
 - o \$1.50 decrease for rental rates from \$75.00 to \$99.99
 - o \$2.00 decrease for rental rates in excess of \$99.99
- **Adjusted Rate** is calculated by subtracting the Limited Indemnity rate from the All Found Rate.
- **Point of Hire Standby** means the equipment is under the supervision or direction of the Province and the equipment and operator are available and ready for deployment within 30 minutes from their designated point of hire.
 - o Paid at ½ of All Found Rate.
- **Transport** means rental Equipment being relocated to and from the Point of Hire or between various staging areas at the designated worksite.
 - o Transport rate is calculated as (Adjusted Rate – Operator Rate) / 2
- **On Site Standby (OS Standby)** means the equipment is under the supervision or direction of the Province and the equipment and operator are available within 5 minutes for work at the designated worksite.
 - o OS Standby LO is calculated as (Adjusted Rate – Operator Rate) / 2
- **Equipment in the Peace/Northern Allowance (NWFC)** – A general northern allowance of 10% will be accepted for Haida Gwaii (Coastal Fire Centre), Highway 97 north of Pink Mountain (Prince George Fire Centre) and Highway 37 north of the Cranberry 2 Bridge (Northwest Fire Centre) to cover added costs in those areas.

Section 1 – Falling

* Weight is used to determine class of models for all categories in this section.

Section 1.1 - Feller Buncher - Tracked - Flat Bottom - Tail Swing				All Found Rate				Market Fuel Adjustment

2022 BCWS EQUIPMENT RATES and MARKET FUEL ADJUSTMENTS

Water tanks can be truck mounted or slip tanks. Rate is added to dump truck hourly rate. Includes pumps and hoses. Do not add rate from Section 10.3.

Section 6.6a - Dumps Trucks as Water Tenders

Capacity - Gallons (Litres)	Hourly Addition
1,500 (6,819)	+ \$4.28
2,000 (9,092)	+ \$4.83
2,500 (11,365)	+ \$5.37
3,000 (13,638)	+ \$5.92
3,500 (15,911)	+ \$6.25
4,000 (18,184)	+ \$6.57
4,500 (20,457)	+ \$6.90
5,000 (22,730)	+ \$7.23

Water tenders include an intake hose, a pump, and 100 ft of discharge hose. Additional hoses and pumps are rated in Section 10.

Section 6.7 - Water Tenders		All Found Rate					Market Fuel Adjustment
