About the Freshwater Fishing E-Licensing System

The E-Licensing system allows individuals to purchase and pay online for a Freshwater Fishing Licence for recreational purposes.

E-licensing gives anglers a wider variety of choices about how, where and when they buy fishing licences. Licences can now be purchased online from a home computer any day, any time.

Vendors continue to play an important role. Anglers who are not comfortable making their purchases online themselves, can buy licences in person at a retail vendor, Service BC or FrontCounter BC office if they prefer. Click here for a list of retail vendors.

Types of fishing licences

1. **Basic Licence**: Every angler who is 16 years of age or older will need to buy a Basic Licence which allows them to fish in BC during a given time period.

   *A Basic Licence is required in order to purchase a Conservation Species Licence and/or a Classified Waters Licence.*

2. **Conservation Species Licence**: Anglers who intend to fish for certain special species must buy a Conservation Species Licence (also called a Conservation Surcharge) for each species in addition to the Basic Licence. The special species are Steelhead Trout, Non-Tidal Salmon, Kootenay Lake Rainbow Trout, Shuswap Lake Char, or Shuswap Lake Rainbow Trout.

   Basic licences can be validated with up to five Conservation Surcharge stamps in addition to a **White Sturgeon Conservation Licence**. The Conservation Surcharge is valid for the licensing year (April 1st to March 31st) except for White Sturgeon Conservation Licences which can be purchased on a single day, eight day or annual basis.

3. **Classified Waters Licence**: Anglers who intend to fish in one of BC’s specially designated trout streams must buy a Classified Waters Licence in addition to the Basic Licence. A Classified Waters Licence allows B.C. Residents to fish on any classified water in the province during the licensing year (April 1st to March 31st). For Non-Residents, the Classified Waters Licence is sold on a per diem basis and is date and water specific.

  ➢ If you’ve previously held an e-licence, but cannot remember your login credentials (Angler Number or phone number on your profile); there are options available to retrieve your angler number (detailed below)
Step 1 – Getting started

Go to the Freshwater Fishing Licence home page.

This page provides information about licences, fees, and links to further information about freshwater fishing.

When you are ready to buy a licence, click the Log In to e-Licence System button located near the top right hand side of the page. The Logon screen (shown below) will appear.

Step 2 – Logon

When you click the Log In to e-Licence System button on the previous screen, the Logon page will appear.

If you already have an Angler Number (from a previous visit to this site, or a licence issued by a vendor) enter your Angler Number, Birth Date and Phone number in the Returning Angler Logon section of the page. Click the Logon button and proceed to Step 5.

If you have never registered for an Angler Number through this web site or purchased an e-licence at a vendor, click the Register Now button and proceed to Step 3.

If you’ve previously held an e-licence but forget your Angler Number click the Retrieve Angler Number button and proceed to Step 4.
Step 3 – Register and get an Angler Number

If you clicked the **Register Now** button on the Logon screen, the **New Angler Registration** screen will appear.

Enter the requested information and complete the mandatory fields. The personal information you provide will ultimately appear on your fishing licence.

Click the **Register** button and wait (this may take up to a minute). Your Angler Number will be displayed.

**Record your new Angler Number.** You will need it to buy licences on-line, or to buy additional licences from an e-licence-equipped vendor. **If you provided an email address** during registration you will receive a registration confirmation email which will include your Angler Number.

Proceed to Step 5 to buy licences.

Step 4 – Retrieve Existing Angler Number

If you clicked the **Retrieve Angler Number** button on the Logon screen, the **Retrieve Angler Number** screen will appear.

Choose the retrieval option that best suits your circumstances.

Once you’ve retrieved your Angler Number return to Step 2 and logon as a Returning Angler.
