# INSTRUCTIONS FOR CARBON TAX RETURN – INVENTORY

## Instructions

This form does not apply to natural gas sellers. Use this form if you are a deputy collector or a retail dealer for fuel (i.e. fuel you purchased in B.C. for resale on which you have paid, or will be paying security to your supplier) and you still own the fuel at 12:01 am on April 1, 2022 under the Carbon Tax Act. This return is due by April 19, 2022.

For additional information:

- visit our website at [gov.bc.ca/fuelandcarbontax](http://gov.bc.ca/fuelandcarbontax)
- refer to [Notice 2022-002](#), Notice to Deputy Collectors and Retail Dealers – Fuel Inventory
- email us at [CarbonTax@gov.bc.ca](mailto:CarbonTax@gov.bc.ca)

## Part 1 – Business Information

Complete all fields. The CIV account number identifies your carbon tax account and will remain unchanged. The media number identifies a specific return for a specific period in reference to your inventory account. This number will change for each return and reporting period. If you do not have a CIV account, contact us or submit your tax return without an account number and without a media number.

## Part 2 – Fuel Activity

All fuel volumes must be reported and rounded to the nearest whole number (e.g. 1.49 becomes 1 and 1.5 becomes 2). **Do not input decimals into the return.**

If you are reporting a type of fuel not already displayed on this return, refer to the Table of Fuel Types and Rates on this page and enter the additional fuel types and applicable tax rates in the blank column(s) on page 1 of the return. Alternatively, you may select additional fuel types from the drop down menu if completing this return online.

### Note:

- Ethanol and ethanol blends are gasoline and are subject to carbon tax at the rate for gasoline. Similarly, biodiesel and biodiesel blends are light fuel oil (LFO) and are subject to carbon tax at the rate for LFO.

Line 1: Enter the total volume of each fuel type owned or deemed to be owned at 12:01 am on April 1, 2022 that you purchased for resale. This includes any fuel in your possession that has been sold but not delivered to a purchaser.

Line 2: For Exempt Fuel Retailers only, calculate your exempt fuel inventory by multiplying your exempt percentages by the volumes reported on Line 1. For example, enter 25,000 litres if you are authorized to purchase 25% of your gasoline exempt from security and you have an inventory of 100,000 litres of gasoline.

Line 8: You may subtract the \$250 inventory allowance from Line 7, Total Security Payable, if:

- you have the capacity during the ordinary course of business to store at least 1,000 litres of fuel, and
- your return and payment are received by us on or before April 19, 2022. If you send in your return and payment by mail, it is considered received on time if the envelope is postmarked by Canada Post on or before the due date. A business postage meter mark is not sufficient.

Line 9: If there is a Net Amount Payable, include a cheque or money order made payable to the Minister of Finance. We cannot issue a refund of less than \$10.

## Part 3 – Taxpayer Certification

All returns must be certified by an authorized signing authority.
