PART B – REFUND APPLICATION INFORMATION

Claim Period

On this application form you may only claim a refund of carbon tax for fuel used on or after April 1, 2023.

Calculating the Refund

This form offers two methods to claim a refund. You must choose either Method 1 or Method 2. Method 1 is designed for commercial air or marine travel with limited usage in B.C. Method 2 is designed for commercial air or marine travel with limited usage outside of B.C.

An amount reported on Line 1 of Method 1, or on Line 1 of Method 2 must be for the same period as an amount reported on Line 2 of Method 1, or Line 2 of Method 2.

If you are reporting a fuel type that is not included in Columns A to D, enter that fuel type at the top of Column E. Refunds are calculated based on the rate of carbon tax paid on fuel used during the claim period.

Method 1

Line 1 Enter the total volume of each fuel type purchased within B.C. that you paid carbon tax on.

Line 2 Enter the total volume of each fuel type that was not used for interjurisdictional travel. For commercial airlines that transported passengers or goods, and businesses that operated a commercial air service, this is the fuel used on flights that connected two locations within B.C. For commercial ships that transported passengers or goods, this is the fuel used to transport passengers or goods between ports within B.C. For other commercial marine services, this is the fuel used on any trip that began or ended in B.C. that did not begin or end at a foreign port.

Line 4 If you have entered an amount in Column E, enter the applicable tax rate from the table on this page.

Line 6 We cannot issue a refund of less than \$10.

Method 2

Line 1 Enter the total volume of each fuel type purchased within B.C. that you paid carbon tax on and that you used for interjurisdictional purposes.

Line 2 Enter the total volume of fuel that you acquired or brought into B.C. without paying the carbon tax and that was not used for interjurisdictional travel. For commercial airlines that transported passengers or goods, and businesses that operated a commercial air service, this is the fuel used on flights that connected two locations within B.C. For commercial ships that transported passengers or goods, this is the fuel used to transport passengers or goods between ports within B.C. For other commercial marine services, this is the fuel used on any trip that began or ended in B.C. that did not begin or end at a foreign port.

Fuel acquired or brought into B.C. includes fuel that you purchased in B.C., transferred into a supply tank or supplemental supply tank in B.C. or brought into B.C. in a supply tank or supplemental supply tank.

Line 4 If you have entered an amount in Column E, enter the applicable tax rate from the table below.

Line 6 We cannot issue a refund of less than \$10.

PART C – CLAIMANT DECLARATION

If the claimant is a corporation, the declaration must be signed by a member of the board of directors or an authorized employee of the corporation. Type or print the name and title of the person who signs the declaration.

Only the business that paid the tax can claim the refund. For more information, see our [Refunds for motor fuel tax and carbon tax](#) page.
