

# HIGHWAY 1 INFORMATION & UPDATES

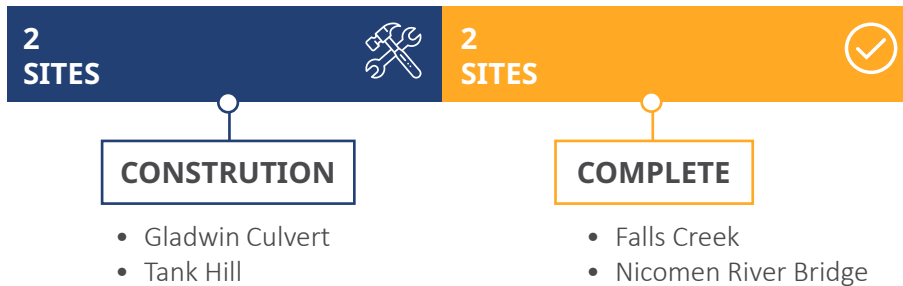

Ministry of  
Transportation  
and Transit

Infrastructure Update Prepared for Residents | August 2025

## PERMANENT REPAIR UPDATE

Permanent repairs are underway on Highway 1 to return the highway to full capacity. Construction is in progress for the Tank Hill project and contractors have been selected for the replacement of Gladwin Culvert and Sackum Overhead Bridge.

### Progress Overview

## TRAFFIC IMPACTS

Construction work at Tank Hill is taking place from 6 am to 4:30 pm daily. Single-lane alternating traffic is in place. Expect delays of up to 40 minutes to allow for train crossings and enable construction work to be done safely.

Always check [DriveBC.ca](https://drivebc.ca) before travelling for up-to-date information on road conditions and delays.

### Visit DriveBC

Construction may create travel delays throughout the corridor. Check [DriveBC.ca](https://drivebc.ca) for more detailed information about current road conditions and reduced speed zones.

### WATCH FOR WILDFIRES

If you spot a wildfire or behaviour that could start a wildfire, call \*5555 or 1-800 663-5555.

Download the BC Wildfire Service mobile app on your device or visit [BC Wildfire Service](https://www.bcwildfire.ca/) to view the current wildfire situation in BC.

### SACKUM OVERHEAD BRIDGE REPLACEMENT

The Sackum Overhead Bridge is approximately 22km east of Lytton on Highway 1.

**Status:** The contract has been awarded to Enviro-Ex Contracting for the bridge replacement. Construction will begin in fall 2025 and is anticipated to be complete in summer 2027.

Drivers and community members may see workers on site and pre-construction activities and monitoring in the area.

### TANK HILL

The Tank Hill project is located 14 km east of Lytton.

**Status:** In construction, on schedule for substantial completion by November 2025.

#### Update:

- Two overnight closures in mid-August allowed crews to place concrete deck panels on the new overpass structure.
- Construction is underway on the barriers on each side of the overpass.
- The retaining wall structures on both the west and east sides of the overpass are complete, and gravel is being placed on the sections leading onto the overpass.
- Collaboration continues with CPKC Rail and the Gladwin Culvert project to minimize delays for drivers.
