

Belleville Terminal REDEVELOPMENT PROJECT

Phase 1:

Construction begins in Spring 2024 and is scheduled to be completed by Fall 2024.

Phase 2:

Demolition of the existing Clipper terminal facilities and construction of the new Belleville Terminal begins in late 2024 and is scheduled to be operational in 2028.

What's Happening in Your Area

The Belleville Terminal Redevelopment Project will provide a safe, secure, state-of-the-art international gateway terminal for passengers and goods. The upgraded terminal will meet Canada's obligations under the Canada-US Land, Rail, Marine, and Air Transport Preclearance Agreement (LRMA). It will also help drive the regional, provincial and national economies while creating a welcoming port of entry for tourists and business travellers alike.

Territorial Acknowledgment:

The Province of B.C. acknowledges the Belleville Terminal Redevelopment Project is located on the traditional territory of the Lekwungen Peoples, also known today as the Esquimalt and Songhees Nations.

PHASE 1 OVERVIEW

Phase 1 of the project will include:

- Modifications and expansion of the Steamship wharf to temporarily accommodate the Clipper vessel.
- Modifications and construction of a temporary addition to the lower level of the Steamship building to provide a temporary terminal for Clipper.
- Construction of a temporary covered walkway between the Black Ball and the Steamship buildings to accommodate Clipper passengers.
- Modifications to the Steamship building to provide a temporary administration space for US Customs and Border Protection.
- Modifications to the Black Ball building to accommodate Canadian Border Services Agency operations.

What to expect during Phase 1:

- Closed pedestrian access along the causeway behind the Steamship building.
- Addition of a large temporary structure behind the Steamship building in late Spring 2024.
- Some noise due to construction work to modify the Steamship wharf and Steamship building.
- No impact to current Clipper and Coho Ferry sailings.
