

Upcoming summer/fall 2025 traffic pattern changes

As part of the broader project to widen Highway 1 through the Fraser Valley, drivers travelling on Highway 1 can expect new traffic pattern changes starting as early as mid-August 2025.

WHERE	WHEN	WHAT TO EXPECT
 Highway 1 westbound, from west of Mt. Lehman Road to west of 264th Street.	As early as mid-August 2025	Westbound traffic will move to newly constructed lanes in the median. The existing westbound off- and on-ramps at 264th Street will be reconfigured to connect to these new lanes.
 Highway 1 eastbound, from east of 264th Street to east of Mt. Lehman Road.	As early as mid-September 2025	Eastbound traffic will move to newly constructed lanes in the median and onto the new westbound Bradner overpass.

These changes are in addition to ongoing overnight lane closures and are needed for the safe and efficient construction of projects that are part of the Fraser Valley Highway 1 Corridor Improvement Program.

Drivers are reminded to slow down and follow posted signs. Please visit [DriveBC.ca](https://drivebc.ca) for the most current information.

For questions, please email hwylfv@gov.bc.ca or call our information line at 604-527-2221.
