

# Get your lab results online

Health Gateway provides secure and convenient access to your health records. Anyone 12 years or older can use it.

You can use Health Gateway to get results for blood tests, cervix or colon cancer screenings and other lab tests done in B.C.

Most lab results are ready about 2 to 3 days after your test. Pathology tests, like a biopsy, are usually ready within a few weeks. Results are available back to 2019.

## How it works

- 1 Choose web or mobile.** Go to the Health Gateway website at [healthgateway.gov.bc.ca](https://healthgateway.gov.bc.ca). Or you can use the Health Gateway mobile app.
- 2 Log in.** Use your BC Services Card account to securely log in to Health Gateway. Find out how at [id.gov.bc.ca/account](https://id.gov.bc.ca/account)
- 3 View your lab results.** Use the **Filter** option to view a list of just your lab results. Open each record to see more detail, including whether the results were in range.
- 4 Download the report.** Select the **Download** button or icon  to open a PDF report of lab result details. You can print the file or save it for later.

## Share feedback or get help

You can find online resources to learn about your lab test and what the results mean at [healthgateway.gov.bc.ca/faq](https://healthgateway.gov.bc.ca/faq)
